LOT & ADDRESS: _____

I/We accept the supplied and installed slab material not viewed and selected but I/we have ordered from a sample knowing full well that, being a natural product there could be a colour and/or pattern variation between the samples and the actual stone delivered.

I/We also realize that there could be a name change within the stone/granite industry. Graniteworx uses the name on our sample in our showroom as directed by wholesalers; whereas some distributors change the name of stones.

I/We agree to all the above conditions.
